FULL TRUCKLOAD TRANSPORTATION CONTRACT

THE BOEING COMPANY

FREIGHT/TRANSPORTATION SERVICES AGREEMENT

This Freight/Transportation Services Agreement (the "Agreement"), dated as of February 1, 2006 (the "Effective Date"), is between The Boeing Company, a Delaware corporation (hereafter called "Boeing"), acting through its Shared Services Group for the benefit of its subsidiaries, operating groups, divisions, and affiliates in which it maintains a minimum of 51% ownership interests, and Yellowstone Trucking Inc. (hereafter called "Service Provider").

The parties agree as follows:

1. SCOPE OF SERVICES

Service Provider shall provide the freight and transportation services described in the Statement of Work (the "Statement of Work") attached hereto as Attachment D and incorporated herein by this reference (the "Services").

2. BILLS OF LADING AND AIR WAYBILLS

Unless the parties use Boeing's standard bill of lading or air waybill, the bill of lading or air waybill terms and conditions applicable to the Services shall be those indicated in Service Provider's standard bill of lading or air waybill in effect on the date the shipment was tendered to the Service Provider; provided, however, that as described in Article 32 below, the terms of this Agreement will control in the event of any inconsistency between a bill of lading or an air waybill and this Agreement. The terms and conditions of any other bill of lading or air waybill will not apply to the Services, and the signature of the Service Provider on the same will only acknowledge receipt of the transported property (the "Cargo") by the Service Provider and identify the entity to receive the Cargo. Continued use of an unauthorized bill of lading or air waybill by Boeing will not constitute an implied acceptance by Boeing.

3. SATISFACTORY PERSONNEL

Service Provider shall assign personnel satisfactory to Boeing. At any time and for any reason, Boeing may require Service Provider to withdraw the services of any person and require that Service Provider promptly provide replacements for such persons satisfactory to Boeing.

4. REPORTING

Service Provider shall provide to Boeing reports in the format, and at such intervals, as requested by Boeing upon contract award.

5. FEES

A. Service Provider agrees to charge, and Boeing agrees to pay, the prices and charges for Services set forth in the Statement of Work (the "Fees"). Both Boeing and Service Provider agree to be reasonable in determining costs for services not addressed in this Agreement.

B. The Fees will be effective for two (2) years from the Effective Date. The parties shall mutually agree in writing to terms, conditions, and pricing associated with any extension of this Agreement beyond the two (2) year period.

6. TAXES

Unless this Agreement specifies otherwise, the Fees described in this Agreement include, and Service Provider is liable for and shall pay, all taxes, impositions, charges and exactions imposed on or measured by this Agreement except for

applicable sales and use taxes that are separately stated on Service Provider's invoice. The Fees shall not include any taxes, impositions, charges or exactions for which Boeing has furnished a valid exemption certificate or other evidence of exemption.

7. INVOICES AND PAYMENT

A. As compensation for Services performed by Service Provider, Boeing shall pay Service Provider the Fees within net thirty (30) days of receipt of correct and properly documented invoices at the billing address(es) specified by Boeing. If Boeing disputes Service Provider's computation of amounts due, Boeing may withhold payment of the disputed amount, but Boeing must pay all charges not in dispute by the invoice due date. An amount is not in dispute until Boeing has provided Service Provider with written notice explaining the disputed amount. Boeing and Service Provider will work in good faith to resolve any dispute within 90 days following receipt of Boeing's notice of dispute, including elevation to management as necessary. Upon resolution, disputed amounts are due and payable during Boeing's next billing cycle.

B. Service Provider will not automatically generate account numbers. In the event Service Provider automatically generates account number(s) without Boeing's written authorization, Boeing will not be responsible for payment of said invoices.

C. Service Provider shall ensure all invoices are correct and contain all information required for payment by Boeing, as mutually agreed upon between the parties, prior to submitting any invoices to Boeing for payment.

D. Boeing and Service Provider shall submit all claims for overcharges and undercharges, as the case may be, within two (2) years of the original invoice date.

E. Boeing shall not be liable for invoices submitted in excess of one hundred eighty (180) days after the date of the Services.

8. TERM AND TERMINATION OF AGREEMENT

A. The term of this Agreement shall commence on the Effective Date and continue for two (2) years thereafter (the "Term"), unless earlier terminated in accordance with this Article 8.

B. Boeing may, by written notice to Service Provider, terminate all or part of this Agreement (i) if Service Provider fails to deliver the Services within the time specified by this Agreement or any written extension; (ii) if Service Provider fails to perform any other provision of this Agreement or fails to make progress, so as to endanger performance of this Agreement, and, in either of these two circumstances, does not cure the failure within ten (10) days after receipt of notice from Boeing specifying the failure; or (iii) in the event of Service Provider's bankruptcy, suspension of business, insolvency, appointment of a receiver for Service Provider's property or business, or any assignment, reorganization or arrangement by Service Provider for the benefit of its creditors. Service Provider shall continue to provide all Services not terminated pursuant to this clause 8.B.

C. Boeing reserves the right to terminate this Agreement, or any part hereof, for its convenience upon Sixty (60) days' prior written notice to Service Provider. In the event of such termination, Service Provider shall immediately cease all work hereunder and shall immediately cause any and all of its suppliers and subcontractors to cease work. In case of termination for convenience by Boeing of all or any part of this Agreement, Service Provider may submit a claim to Boeing within thirty (30) days after the effective date of termination. In no event shall Boeing be obligated to pay Service Provider any amount in excess of the Fees. The provisions of this clause 8.C shall not limit or affect the right of Boeing to terminate this Agreement for default.

D. Service Provider may terminate this Agreement for its convenience upon ninety (90) days' prior written notice to Boeing. In the event of such termination, Service Provider shall continue to provide the Services to Boeing until the end of such ninety (90) day period. In case of termination for convenience by Service Provider, Service Provider shall submit its final invoice to Boeing for all Services within Sixty (60) days after the effective date of termination.

For those shipments with both the origin and destination (excluding round trip scenarios) in the following states (AZ, CA, ID, NV, OR, UT and WA), the fuel surcharge will be based on the West Coast average of the EIA Retail On-Highway Diesel Price Index. The EIA Fuel Index (Energy Information Administration) is updated on Monday of each week. Fuel surcharges, if warranted, will be evaluated on the last Monday of each month. Determine the running average fuel price for all 4 or 5 weeks within that month. Compare the monthly average to the scale below, and apply the corresponding surcharge commencing with shipments made on the first day of the following month.

48. SUPPLIER PERFORMANCE REVIEWS

In the interest of improving business processes, The Boeing Company has implemented programs for performance evaluations of key suppliers. That process will be formalized with the service providers that handle the most significant portions of our freight business. Traffic Council representatives from each major site will determine which of the contract service providers will be monitored, and will assess their performance for quality, cost, schedule, and customer service. The Boeing sites will complete freight carrier evaluation forms twice a year, for each of the selected carriers. Multiple site reports will then be rolled up into a single report and a performance grade determined for each firm. Meetings will then be scheduled to report findings and discuss possible areas for improvement. Once this review process has been refined, and sufficient historical data has been established, performance criteria may be incorporated into the contracts.

49. OVERDIMENSIONAL FREIGHT

Overdimensional charges apply ONLY when an over dimensional permit is required by any federal, state, municipal or other regulatory agency. If Boeing requests a curtain side trailer for a legal load and the service provider utilizes a curtain side trailer which is over the 102 inch legal width, the service provider shall accept liability and assume responsibility to obtain the permits required from all states that have not yet cleared this trailer as a legal trailer. Permit costs for these vehicles will be born by the service provider, and not passed on to Boeing.
